GS5

GS5

When a MVP, all-title winner, top scorer, and a championship-ring owner is on your team, what else to desire?
Confidence always strives to stand out.
Power is the engine that pushes everything forward.
Built to stay in control when facing new challenges.
Built to lead in all situations, making driving all the more enjoyable.
Built to give your beloved ones the most comprehensive protection.
GAC MOTOR GS5 is a pioneering SUV for the new age. It combines powerful road performance with comfortable interior to provide you the ultimate driving experience.

**Aesthetics Of Light
And Shadow**

Standing Out From The Crowd

Light-and-Shadow Sculpting 3.0 **Reinventing The GAC MOTOR Design**

The front face imposes an impressive and elegant visual impact. The design accentuates the beauty and strength of its own form.

A Powerful Presence

Dazzling Matrix LED Headlights

The bright beams of light cut through the darkness of the night and illuminate the road ahead.

Stylish Rearview Mirror Turn Signals

A stylish boomerang curve turn signal adorns each of the side-view mirrors.

Hooked Whale Fin D-Pillar Design

The exquisitely curved corners show incomparable strength. In every detail shows exceptional design.

Eagle Wing 3.0 Flying Dynamics Grille

The grille design was inspired by the expanded wings of an eagle. The simple but powerful lines capture the movements of flight and symbolize confidence in the face of the unknown.

LED Taillights

Like the sun breaking through the clouds, the 190 LED lights provide high-quality illumination.

Powerful Engine

Driving Forward With Passion

Six Key Breakthroughs 235T Engine

Further Mixing

The Bosch 2nd-gen high-pressure injection system adjusts the fuel spray based on the dimensions of the combustion chamber, implementing further fuel mixing.

More Stable Combustion

Multiple injections in a single cycle ensure the stability of combustion, accelerate catalytic converter ignition, and reduce emissions and fuel consumption.

Better Distribution

The electronically controlled variable displacement oil pump provides better oil distribution and reduces fuel consumption by 2.5% during the NEDC cycle.

Cutting-Edge Technology

The patented GCCS combustion control technology increases the burn speed by 22% and reduces fuel consumption by 15%.

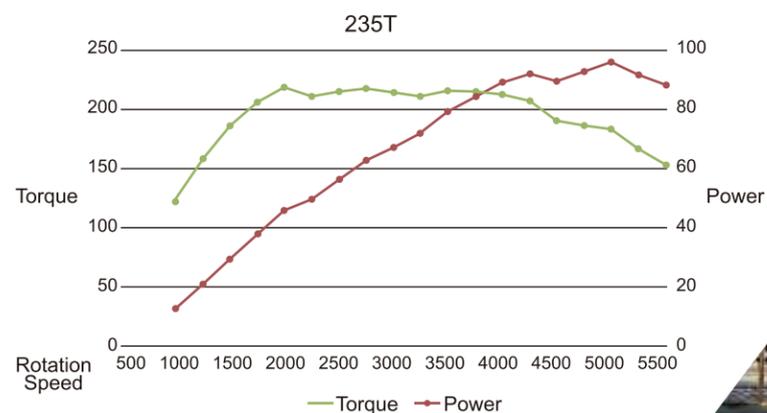

Faster Response

The BorgWarner low-inertia electronically controlled wheeled turbocharger delivers a faster transient response and peak torque at ultra-low speeds.

Full Combustion

The DCVVT mechanism allows for more complete combustion, effectively increasing the moderate and low-speed torque and the high-speed power.

Max Power: 112/5000 (kW/rpm)
Max Torque: 235/1450-4250 (N·m/rpm)

7.5L per 100 kilometers

Powerful Abilities

Invincible power results from battle-tested technique. Constant refinement and tempering generates explosive performance.

Latest Aisin 6-Speed Automatic Transmission

- Quick shifting response, excellent fuel efficiency, and worry-free driving experience.
- Low fuel consumption and fast shifting
- Self-learning and adaptive intelligent control
- New functions "Neutral Control" and "Start - Stop"

Conqueror Chassis

Calm And Confident In All Situations

Conqueror Chassis Finely Calibrated By Global Master Craftsmen

Four Superior Technologies Give You Full Control

The innovative brake and suspension systems provide excellent and reliable braking performance.

The brand-new Hero product chassis greatly improves the roll performance on curves and the pitch performance when braking.

The auxiliary rear suspension enhances lateral rigidity and provides outstanding stability.

Through energy-efficient processes, the steering knuckle and anti-roll bar are made from high-performance materials and deliver extremely fast steering response.

International-Standard High Quality

Fine-tuned by global experts

Continental CSC5 silent tires for outstanding maneuverability and stability

TRW 3rd-gen electric power steering (EPS) system

ITT sports car class brake pads

Part supplying by 10 prestigious international suppliers

Built to stay in control

Revolutionized Dexterity

Fast response, high precision, excellent stability. The vehicle's excellent drivability tackles all road straight or curved.

34.77m Ultra-short braking distance comparable to a sports vehicle

2.58° Roll angle, superior in class

0.96° Brake dive angle, superior in class

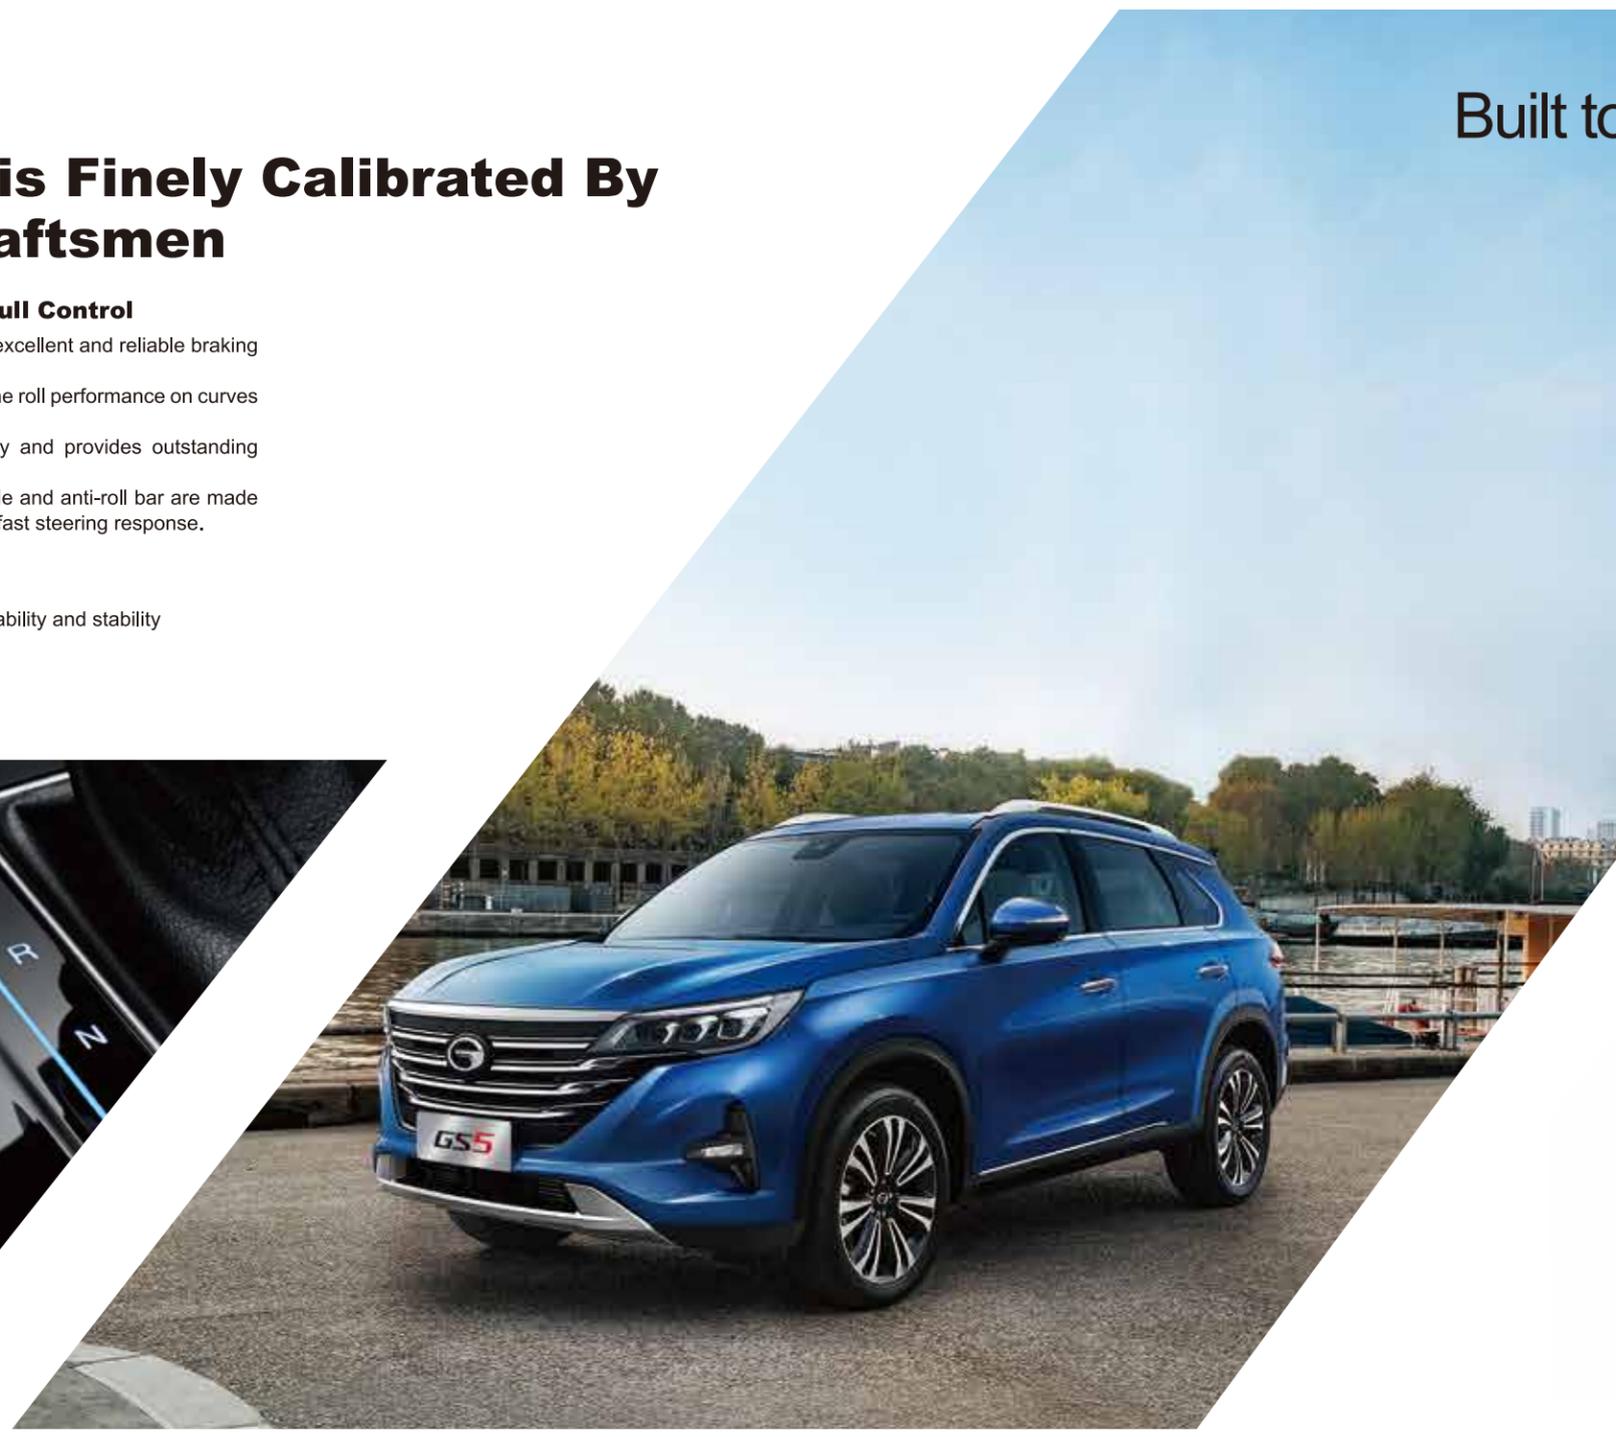

66km/h Double lane change max passing speed, superior in class

0.088s Rapid steering response time

74km/h Anti-rollover max speed

Three Highly Sdaptive Driving Modes: Standard, Sport, And Comfort

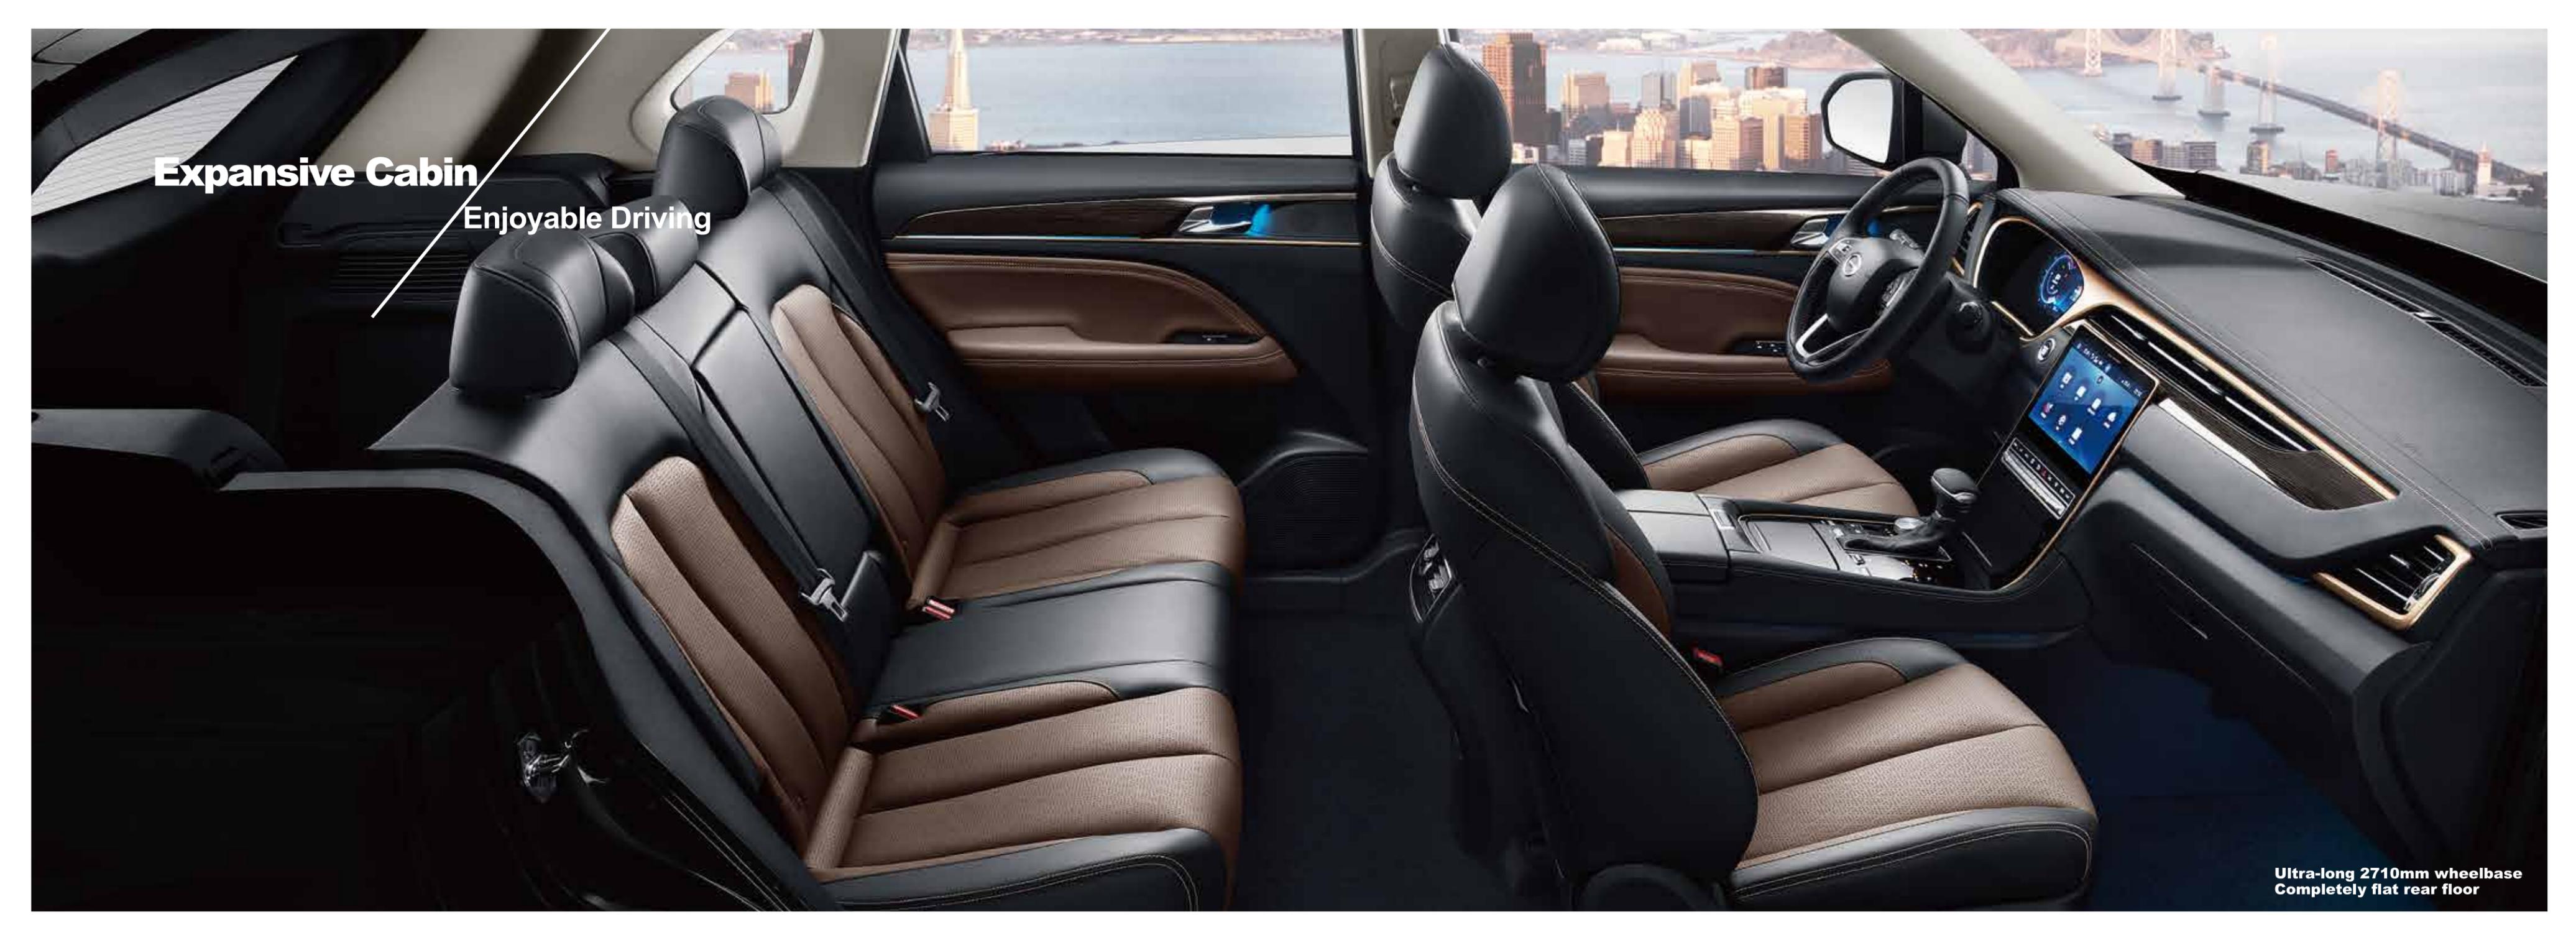

McPherson Independent Front Suspension And Multi-link Independent Rear Suspension

Excellent Stability And Comfort

The front-suspension lower arm uses a hydraulic brushing design to effectively suppress the shock and vibration transmitted by the road surface, implementing shock-free driving experience.

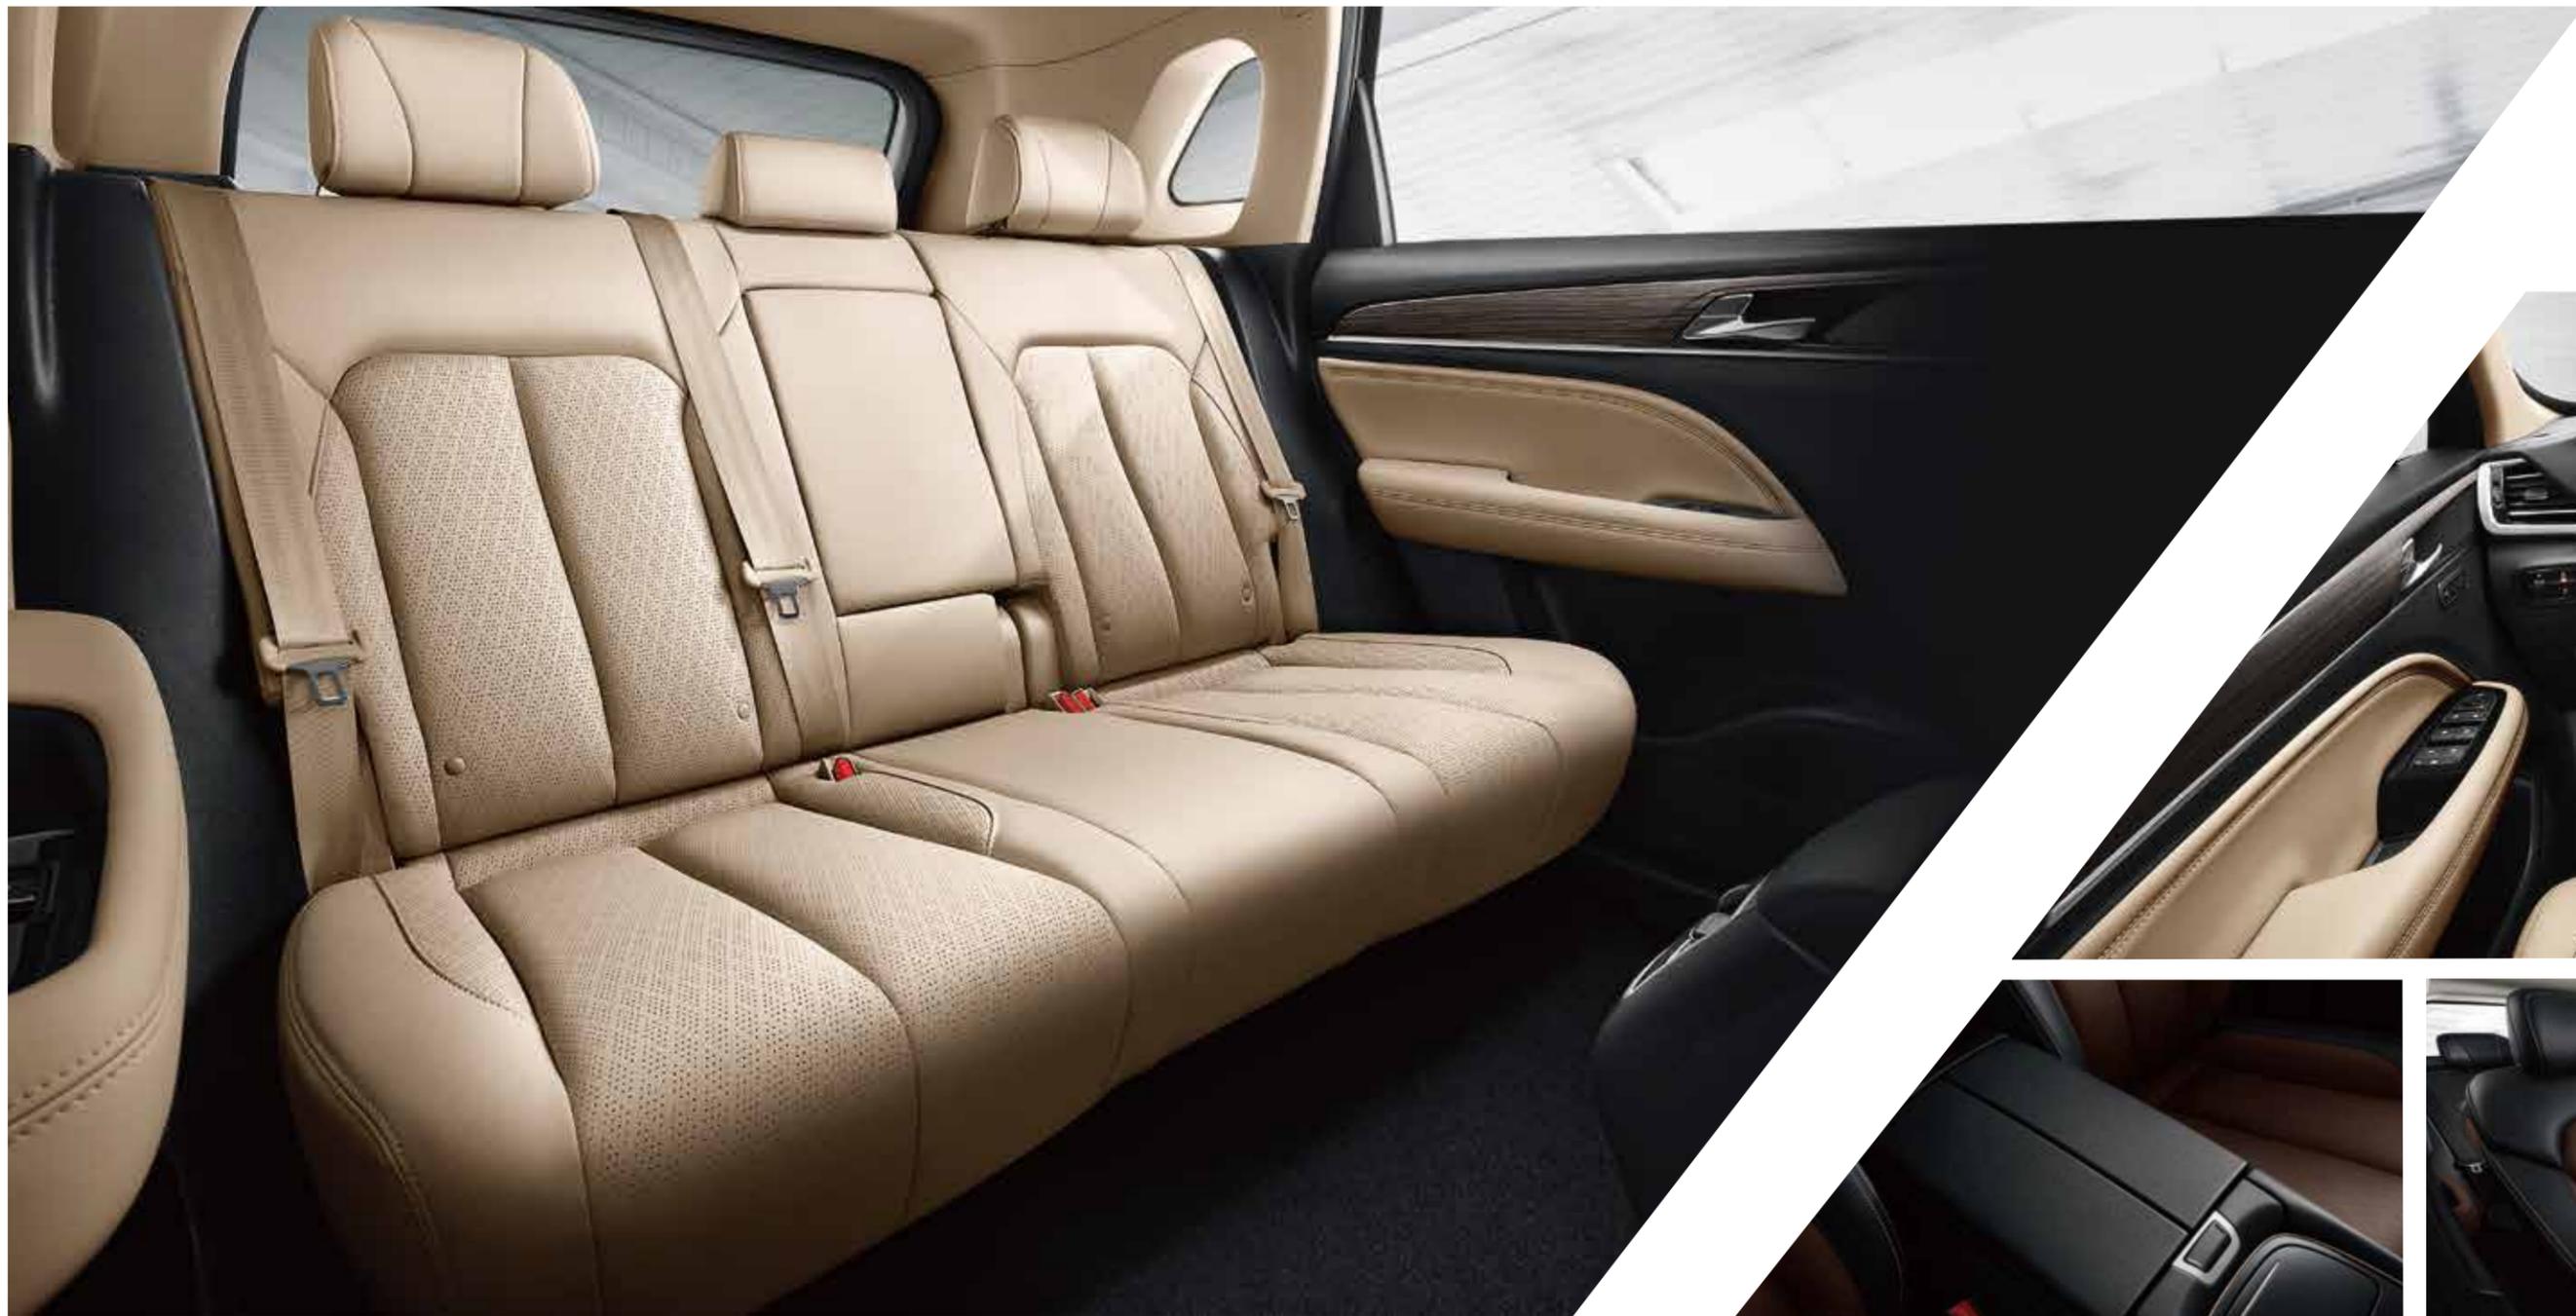

The high-clearance rear trailing arm is designed to absorb shock and provide a smoother ride than any other same-class vehicles.

The image shows the front interior of a car. The driver's seat is on the right, and the passenger seat is on the left. Both seats are upholstered in black leather with tan-colored fabric inserts on the seat cushions and backrests. The dashboard is black with a large, vertical touchscreen display in the center. The steering wheel is black with a silver logo in the center. The car is parked on a road overlooking a city skyline and a body of water, with a bridge visible in the distance. The text "Expansive Cabin" is written in white, bold font in the upper left corner, and "Enjoyable Driving" is written in white, regular font below it. A white diagonal line separates the two phrases. In the bottom right corner, the text "Ultra-long 2710mm wheelbase" and "Completely flat rear floor" is written in white, regular font.

Expansive Cabin

Enjoyable Driving

Ultra-long 2710mm wheelbase
Completely flat rear floor

Rear seat height of 1019mm and backseat legroom of 985mm

Enjoy a quiet cabin with a low NVH of 36.9dB during idling.
Designed for elegance and comfort

Split armrest design

8-way power-adjustable leather seats

Oversized trunk space and multifunctional seat arrangements

Refined and Natural Cabin Environment

The negative ion technology is integrated to create a healthy and natural space for you. Away from the impurities outside of the car, each breath you take is fresh and pure.

Automatic Air Control System Could Generate 3 Million Negative Ions

The advanced air quality management system integrates a humidity sensor, PM2.5 sensor, PM2.5 filter, and negative ion generator to produce fresh air. You can monitor the in-car air quality with your mobile phone and start the air purification system in advance.

DENSO Dual-Zone Automatic Climate Control

Working with the prestigious climate control system provider Denso, we developed an innovative dual-zone climate control system. This system can meet the cooling and heating needs of different passengers in the vehicle.

A New Start of Life In High-tech Space

Human-centered design concept, carved-in ingenuity, irreplaceable elegance. Get on board and you will grasp the future of transportation.

Easy open smart power trunk hatch

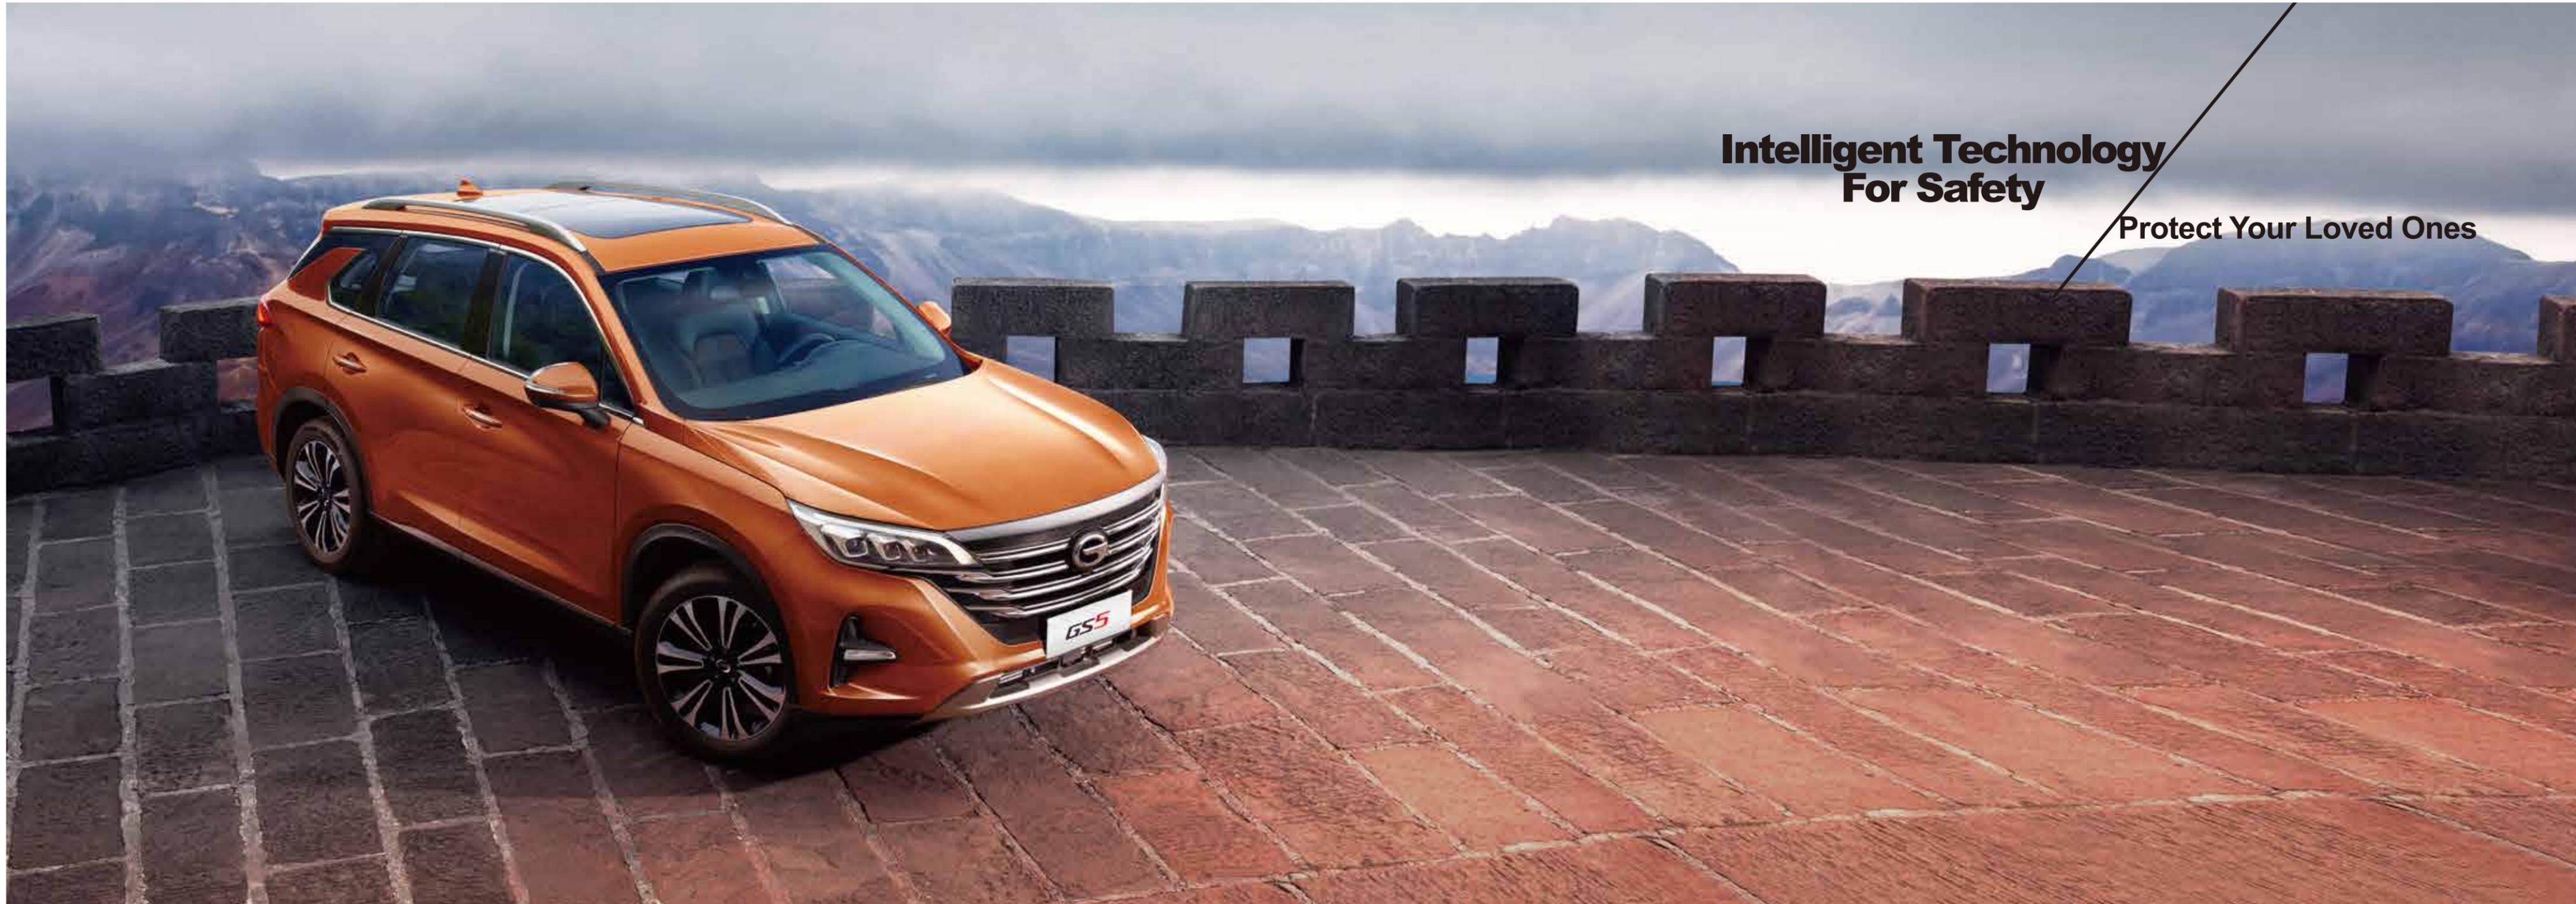

Wireless mobile charging

C-ECAP Gold-Medal Quality Interior

The in-car air quality is improved with the imported and environmentally friendly TPO leather, which meets the EU's chlorine requirements.

**Intelligent Technology
For Safety**

Protect Your Loved Ones

Comprehensive Safety Design For Full Protection

Enhanced protection and safety. Your safety is always on our mind.

Developed In Accordance With The 2018 C-NCAP Super Five Star Standard
